

Consultant Vitreoretinal Surgeon

Institute of Eye Surgery (IOES), Waterford, Ireland

Job summary

Consultant Ophthalmologist with subspecialty interest in vitreoretinal surgery.

Our vision is to provide each and every patient with optimal eyesight and eye health through excellence in eye care. We strive to create a collaborative and innovative working environment. IOES is currently seeking a motivated Consultant Vitreoretinal Surgeon in a full-time permanent capacity to complement our existing team of 7 consultants. This role presents an exciting opportunity for the right candidate to be able to further develop their vitreoretinal career and shape vitreoretinal services for the future. .

Minimum Commitment: 4 Days per week

Salary: Flexible (Depending on experience) + Bonus

Main duties of the job

The Institute of Eye Surgery (IOES) currently provides vitreoretinal services at UPMC Whitfield Hospital in Waterford City and UPMC Kildare Hospital in Clane, County Kildare. This post will thus require cross-site working and may involve travelling between our surgical locations.

Informal visits are actively encouraged to show you our excellent facilities on offer and our innovative approach to developing the service.

About us

IOES is a multi-centre private eye clinic group operating in Ireland with strong brand awareness and a growing geographic footprint. IOES is currently the only eye care network of private clinics in Ireland offering all ophthalmic subspecialties under one roof. It is our mission to build Ireland's Ophthalmology platform into a global leader by delivering the highest quality outcomes through innovation, integration, education, research and clinical practice.

IOES is one of only a small number of private clinics in the UK and Ireland recognised as an international centre of excellence in clinical trials. IOES is currently trial site for a Phase 2 gene therapy trial for geographic atrophy, Phase 3 Port Delivery System for wet AMD, artificial intelligence enriched OCT segmentation study and host to numerous industry sponsored investigator initiated studies.
